EXPERTISE

- Plant engineering law
- Project development and project management law
- Construction contracts
- Real estate law
- Procurement law

Adam advises and represents principals as well as contractors on all issues of private construction law and real estate law, in proceedings both in and out of court. A key practice area is plant engineering in the field of renewable energy, in particular onshore wind farm projects. He also advises public companies.

Recent work

- Project-related advice on the planning and development of wind farm projects

Curriculum Vitae

- Studied law at the University of Kiel, 2001 to 2006
- PhD on East European law, Kiel and Danzig, 2007 to 2009
- Legal clerkship in Kiel, including seats at a law firm specialising in construction and architects' law in Hamburg and a three-month internship at the German Embassy in Moscow, 2009 to 2010
- Lawyer in Hamburg and Zurich since 2011
- Lawyer at Kapellmann since 2016

Further qualifications and memberships

- Lecturer in Civil Engineering and Resource and Environmental Management at the Deggendorf Institute of Technology
