EXPERTISE

- Public law
- Public funding and subsidy law
- Data protection law

Hendrik advises on all administrative law issues in connection with construction projects. Key practice areas are providing legal advice on complex development planning procedures for large construction projects such as shopping centres, commercial developments and public administration facilities, as well as advising on immission control approval procedures.

He also advises on data protection law and the fulfilment of operator obligations, in particular in the context of compliance audits. He also carries out public law due diligence reviews for real estate transactions.

In the area of public funding and subsidy law he advises on the legally compliant management of publicly funded projects, defends funding recipients against imminent grant reclamations and represents funding authorities.
