EXPERTISE

- Construction contracts
- Law of architects and engineers
- Plant engineering law
- Project development and project management law
- Legal management for large-scale projects JurProM®

Thomas advises principals and contractors on all issues relating to payment and defect liability issues, the enforcement and defence of payment and damage claims based on construction period, architects' liability and remuneration and contract drafting and legal support in complex construction and plant engineering projects.

A key practice area is the provision of comprehensive advice regarding digitalised construction projects (smart buildings) and advising in connection with the decommissioning of nuclear power plants.

What others say

„ Regularly recommended in private construction law, 'a very practical lawyer who can also keep the necessary theory in focus' - client; 'constant in process management', competitor “

JUVE Handbook 2023/24

„ Recommended lawyer for construction law “

Legal 500 Germany 2020

„ One of the most frequently recommended lawyers for construction law “

Handelsblatt/Best Lawyers® 'Germany's Best Lawyers 2024'
